Basic experience with web development, especially the backend part

Internship Offered

You will work on our flagship analytics application (you can see the demo here: <https://demo.luigisbox.com>) written in Ruby on Rails. We'll give you the necessary technical training and give you daily support, but we expect that you understand the basic concepts of backend development. You'll be working in a small team of Ruby developers, improving the application that is used by hundreds of clients in Europe. You will start on smaller, isolated improvements and features, and depending on your willingness and skill, move to more difficult features.
